

CASE STUDY

Residential Application- Building Envelope

GEOGRAPHICAL AREA:
Linden, Michigan

ISSUE:

Looking for an alternate way to insulate 2nd story of house that has no forced heat, only gravity heat.

SOLUTION:

HomeProtect™

Coverage: 3-coats

RESULTS:

- ✓ Provided an alternative form of insulation that is easy to apply.
- ✓ The room now heats up in 10-15 minutes as opposed to the typical 30 minute timeframe.
- ✓ Provided thermal insulation resulting in energy savings.
- ✓ Long lasting 5-10 years

Award Winning Energy Saving and Asset Protection Coatings

- Customer Quote -

"I just wanted to write and thank you for recommending the HomeProtect™ coating for the second story of my home. As you recall our 2nd story has no forced heat, it is a gravity heat, prior to the application of HomeProtect™ we had to wait 30 minutes for our bedroom to heat up with our heater, now its around 10 to 15 minutes amazing and its even colder outside than it was before. This coating has made a substantial difference in the warmth and comfort of my home. I am sure this product will pay for itself in no time, as you had said. I will definitely recommend your company and products to other people for it has remarkably proven itself worthy."

Thanks Again,
K. Newman
