

CASE STUDY

Residential Application

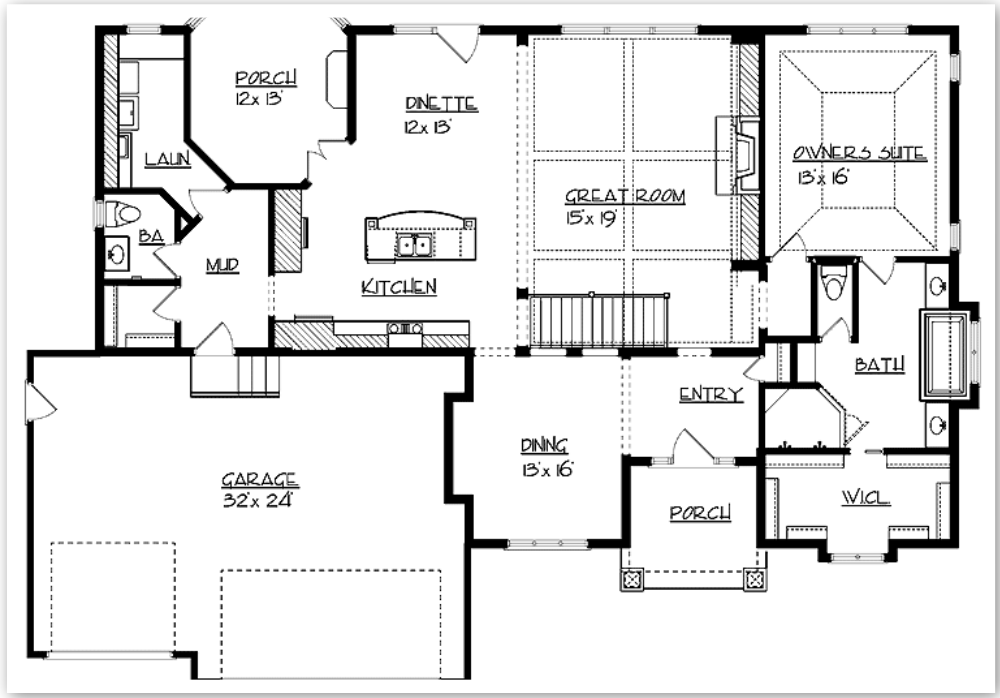

Award Winning Energy Saving and Asset Protection Coatings

GEOGRAPHICAL AREA:
Seligman , Missouri

ISSUE:
Home energy savings. Lower heating and cooling costs.

SOLUTION:
HomeProtect™
Coverage: 3-coats

- RESULTS:**
- ✓ Heating bill for coldest month of the year: \$43.00
 - ✓ Able to heat a 4,000 square foot home with one 5-ton heat pump unit.
 - ✓ Long Lasting 5-10 Years

"FYI I am in the end stages of building a 4000 sq ft house which is why I stumbled on HomeProtect™ in the first place. When I saw the possibilities, I knew if it really worked it would revolutionize the insulation industry; and I was waiting for the real test and that was the first heating bill for the coldest month of the year, and it was \$43.00.

I am heating this house with one 5-ton heat pump unit. Something the heat and air people told me I could not do. I was ecstatic when I saw that bill. I can now really believe in it, because I know it works."

-R. Patterson, Seligman, MO
