

CASE STUDY

Horse Trailer

Award Winning Energy Saving and Asset Protection Coatings

GEOGRAPHICAL AREA:

Mammoth Spring, Arkansas

ISSUE:

Looking to insulate dressing room in Horse Trailer.

SOLUTION:

Syneffex™ PT

Coverage: 6-coats

RESULTS:

- ✓ Dressing Room stays cooler in the summer and warmer in the winter.
- ✓ Long Lasting 5-10 years.
- ✓ Provides mold and corrosion resistance.
- ✓ Clear coating allows for underlying surface to shine through.

"I bought your product about 20 months ago to use in the dressing room area of my horse trailer. The difference it has made is AMAZING!!! I ride endurance horses, which means that I frequently camp in that dressing room. It stays cooler in the summer, and MUCH warmer in the winter! I recommend your product to people about once a week (at least!). It was SO EASY, and worked SO INCREDIBLY WELL!

Better living through quality science-way to go, folks!"
