

CASE STUDY

Residential Application- Building Envelope

GEOGRAPHICAL AREA:
Salt Lake City, Utah

ISSUE:

Looking for an alternate way to insulate back bedroom to reduce heat gain.

SOLUTION:

HomeProtect™

Coverage: 3-coats

RESULTS:

- ✓ Provided an alternative form of insulation that is easy to apply.
- ✓ The room now maintains 72F with external temperatures of 106F.
- ✓ Provided thermal insulation resulting in energy savings.
- ✓ Surface protection-resistance to mold, moisture and UV damage.
- ✓ Long lasting 5-10 years

Award Winning Energy Saving and Asset Protection Coatings

- Customer Quote -

"We love what your paint has done for our back bedroom. It was not insulated and remained hot in the summer even with two a/c vents blowing into the room. Now, it remains 72 degrees when the sun is beating down on the roof and the outside temp registers 106 degrees!

Amazing!"
